WARRANTED to do no injury to Clothing, and to be the best Soap in the known [illegible]. A half pound is all that is required for the washing of all that ten gallons of Suds will soak, and *dispensing entirely with* boiling, which no other preparation pretends to do, and the use of the Washing Machine and Rubbing Board, thereby saving the expense of fires and the most severe labor of the washing day, and also the entire wear and tear of the clothing (to say nothing of the hands,) in washing, which is frequently the most destructive to which clothing is subjected.
The Suds after the wash, is the best article for the cleansing of painted surfaces, wood work, oil cloth, carpets, iron railing, &c. that many ladies in this city who have tried it, ever saw.

A NEW ARTICLE!
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To prevent baldness, and to restore the hair that has fallen off or become thin, and to cure effectually Scurf or Dandruff.
Prepared only by S. JOHNSON, Jr., 151 East Water street, Milwaukee

FOR THE TOILET.
THE Invigorator is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease, or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c, which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it soft, will positively change the hardest hair into the most soft, healthy, glossy state; also imparts to it a darker color; and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life. Ladies will find the Invigorator a great addition to their toilet both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. nov21

A better article of Stoves
and at LOWER PRICES, than can be bought at any place west of Albany.
From an experience of ten years in the Stove business in Milwaukee, we have learned what kinds are best adapted to the wants of this country, and have no hesitation in saying, that in point of style, utility and durability, the
PRESQUE ISLE FOUNDRY STOVES
excel all others brought to this market. The designs and patterns are new and elegant, and being cast from the block, are more durable than those cast from the pile, for the reason that the latter require more melting than the former.
Among our Cooking Stoves may be found the LYON and ELIZA, two Stoves that stand without a rival among the "Air Tights." The Eliza is a diving flue stove, with two tops, one for boiler or tea, other small kettles, and the other for boilers, washing pots, &c. Also, the KEYSTONE and CHAUTAUQUE FARMER, with elevated ovens. The Keystone is regarded by all who have seen it as the finest specimen of a cooking stove ever presented to the public, and the fact is attested by the large number sold.
The Chautauque Farmer, was designed expressly for the farmers' use, it having no inside or division plates, making the fire-place large and not liable to burn out.
Of the above mentioned Stoves we might give over 500 certificates, proving their good qualities, from persons who have used them; but as we guarantee them to be the best in use, we do not deem it necessary. We have also every variety of
Premium and Double-Oven Cooking,
From No 1 to 6; also a great variety of
AIR-TIGHT PARLORS!
of splendid patterns, with and without folding doors, together with an endless variety of
PLATE AND COAL STOVES,
all of which we respectfully request you to call and examine before purchasing.

DAILY FREE DEMOCRAT.

Daily, Tri-Weekly, and Weekly.

S. M. BOOTH, : : : : : : : : EDITOR.

MILWAUKEE:

FRIDAY AFTERNOON, JANUARY 2.

SORRY TO HAVE A SLAVE BECOME FREE. The Sheboygan *Journal* publishes Mrs. Gage's story of the escape of a Slave,—"Woman's Wit and Woman's Will,"—which we gave our readers recently—but says, editorially, that it "savors a little too strongly of the 'woolly-head' doctrine to suit us." A few days' chase of the slave hunter with his bloodhounds and manacles, to make him acquainted with the beauties of the patriarchal institution, would effectually cure the *Journal* editor of his present weakness.

☞ We understand that S.M. Booth, Esq., of the Milwaukee *Free Democrat* (we hope Mr. Booth will give us credit for editorial courtesy) is certain (?) to be elected clerk of the Assembly—that this is a consideration for the complete co-operation of the Whigs and Free Soilers in other respects—that this is a *demand* from which the "nigger faction" will not yield.—*Fond du Lac Patriot.*

No other paper has the news. We can assure our anxious cotemporary that there is not the least danger of the event it dreads—that we have not learned that there is any general disposition on the part of the Whigs to elect *any* Free Soiler Clerk, but we understand they intend to elect *all* the officers of the Assembly from the members of their own party. This ought certainly to satisfy the *Patriot.*

As to the *demand* of "the nigger faction," they have none to make. They are in a minority, as the Whigs are, and like them, they are going to elect their own candidates. So quiet your fears, and save your sneers, neighbor!

AGITATORS.

The Fond du Lac *Patriot* having declared that Abolitionists and Disunionists are the only agitators it knows of, and having classed the Beloit *Journal* among Abolitionists, the Editor of the *Journal* replies at length, showing that the chief agitators at present are Compromisers, like Foote,—that agitation, where there is nothing wrong to be remedied, is harmless, and where there *is*, it is a useful work, and refers to the course of the present Congress for illustration. It then makes the following noble confession:—

"And as to Abolitionism, we confess that we are an Abolitionist. We have been nothing else since we were old enough to rejoice that this was a land of freedom, and to know that there were nevertheless three millions of fellow-men in chains among us. We glory in the name. It is one fit to boast of, and no one is worthy to be called a philanthropist who is not entitled to it. Nor in avowing this do we 'isolate ourself from our party.'"

* * * * *

"Let us not be misunderstood. The ground we stand upon is this: That Slavery is wrong, and in violation of the spirit of our Constitution; that it exists in some of the States, for which, as they are sovereign in regard to it, they are alone responsible, and we cannot decree its abolition; but that, nevertheless, so far as we can operate upon it politically, and not violate the faith pledged in the Constitution, and so far as we can affect it by argument, persuasion, entreaty, or other moral means, we are bound to do it, and we will do it. The term Abolitionist is not a narrow term, and all who think with us have generally been, as they properly should be, ranked as Abolitionists. We propose to violate no law, to nullify no part of the Constitution; but simply to do what we may legitimately do. And this is the ground of ninety-nine hundredths of the Abolitionists in the country. There is a party, to be sure, that aims to abolish Slavery by subverting the Constitution. But they are not one in a hundred,—not one in a thousand,—of the Abolitionists, and the name was given long before there was either such a party, or such an idea broached. And this great class comprises nearly every man in the free states. Indeed, we know not the man to whom we could put the question and expect a negative answer, not even excepting our neighbor of the *Patriot.* So much for this 'bugaboo' about 'Abolitionism,' and so little does it 'isolate' us from our party."

GERMAN MEETING.—A meeting of the German citizens of Racine, took place on Monday evening last, and a committee of fifteen were appointed to make arrangements for a great public meeting, to be held as soon as possible, for the object of considering the subject of the German National Loan, to aid in revolutionizing Europe. Of the committee appointed, six were Germans, six Americans, and three Irishmen.

THE SPEAKERSHIP.—We still adhere to our former assertion, that it is best for our Democratic friends to let the whigs do their own work; but if they will not, we cannot help it. If the successful candidate is to be elected upon his own merits, as a man, aside from party politics, our voice is for C. LATHAN SHOLES, of Kenosha. We believe him to be a man qualified for the post in every way—a MAN whose heart is with humanity and progress. For true independence of character, and honesty of purpose we believe Mr. Sholes has no superiors.—*Waukesha Democrat.*

And if the Democrats will unite on Mr. Sholes and elect him, we will give them credit for doing a worthy act. We second the motion heartily.

☞ A Kinkel Meeting was held at Watertown on the 27th ult., and a committee of six appointed to draft resolutions and report at the next meeting, which is to take place on Saturday, (to-morrow.) The object of the meeting, is to raise funds for the cause of liberty in Germany.

☞ The Blakeley Family gave three concerts in Madison last week.

☞ A Kossuth Meeting is to be held at Racine, on the 6th of January.

☞ The *Commercial Advertiser*, of Racine, has just commenced the eighth year of its existence.

BY TELEGRAPH.—Hotchkiss' Line.

JEFFERSON, Wis., Jan. 2, 1852.

H. D. PATCH, the democratic candidate for Assembly, in the Beaver Dam district, is elected by 78 majority.

DRAWING.—Our neighbor, of the *Commercial*, having bolted the nomination of the Democratic party, for Congress, a year ago, in his last issue, draws on his imagination, or his experience, for a sketch of a bolter from party trammels, with a computation of the profits of an independent position, instead of a partizan one.

Our cotemporary was quite successful in the former position. He will now have ample opportunity to reap the profits of a mere partizan post.

SECOND TRIAL.—The telegraphic dispatch shows that Horace D. Patch, Democrat, has been elected over Chas. Mann, Whig, in the Beaver Dam Assembly District, by a majority of 73. The vote was very light. This makes the Assembly stand 31 Whigs; 29 Democrats, and 6 Free Soilers. The Senate stands 12 Democrats, 5 Whigs, 1 Free Soiler, and 1 vacancy. On joint ballot the parties now stand Democrats 41, Whigs 36, Free Soilers 7, and 1 vacancy, neither party having a majority. The Democrats will lack *one* of a majority on joint ballot, if they elect Thomas, and *three*, if the Whigs elect their man. Close figuring.

DEATH OF GENERAL BELKNAP.—The Fort Smith *Herald* of the 21st ultimo, announces the death of Brevent General William G. Belknap, of the Fifth Infantry. He was on his way to Fort Gibson on sick leave, when he became prostrated by disease, and died before he could reach that point, where his family was awaiting him. He was a brave and meritorious officer.

THE KILMISTES', a *troupe* of popular vocalists, are entertaining the people of Chicago with their musical concerts.

☞ Mr. E. Daniels is delivering a course of Lectures in Fond du Lac, on the science of Geology and Mineralogy.

FOUND DEAD.—Bridget Cushman an Irish woman, aged 35, was found dead in the basement of No. 103½ Water street, Albany, on Monday morning, 15th ult.

RESIGNATION.—Dr. S. W. Abbott, postmaster at Spring Valley, Peck Co., has resigned.

A NEW DEAL.—A correspondent of the Waukesha *Democrat* proposes a District Convention of this Congressional District, to nominate a Delegate to the Baltimore Convention.

☞ The publishers of the New York Bank Note List says that new and dangerous counterfeit 5's, on the State Bank, Hartford, Conn., have appeared. The original plate is a poor one, and the deception hard to discover.

QUICK TYPE-SETTING.—The New Orleans *Bulletin* states that, on the reception of the President's message in that city on the 4th inst., one of their fast compositors set up four thousand five hundred ems in 2 hours and 10 minutes—a fact, it says, which cannot be beat any where.

BED OF WATER LIME.—We understand that a number of cisterns have been built in Koskonong, the past fall, from lime obtained from the farm of Mr. Daniel Finch, in that town. The bed is very extensive, and the lime has been proved to be a superior article, in every respect. Mr. F. is making preparations to manufacture it the coming spring, on a scale which shall be equal to the wants of the State.

This is a discovery important not only to Mr. F., but to the people of this portion of our State, saving us the necessity, as it will, of longer sending our money abroad for this article.—*Watertown Chron.*

ENORMOUS OUTLAY FOR ADVERTISING. Townsend, the Sarsaparilla man, says his books exhibit an outlay for advertising, in the course of five yers, in the various papers of the United States, of $300,000. He says, for six months he cut off all advertisements, to see if his medicines would not go off on their merits just as well as by advertising. He lost $300,000 by it; sales dwindled down to nothing, for his competitors seeing him drop off, went on advertising heavily, and got the start of him.

ACKNOWLEDGING THE CORN.—Chicago is the most extensive market for Corn on the Lakes. Toledo is next. The total receipts at both points the past year, are as follows:

At Chicago - - - -	2,820,669 bushels.
At Toledo - - - -	2,565,962 do.

—*Chicago Journal.*

A DEFINITION.—We are at last enabled to answer a question frequently propounded by our correspondents:

"What is a Bloomer?"

"A woman who *pants* for notoriety."—*Ex.*

BREADSTUFFS IN NEW YORK.—The N.Y. Daily Times, of the 19th ult., says the rise in flour for the past fortnight, is reckoned by one of our leading brokers in that line, at 37½ to 50 cts., and the stock reduced, by the early closing of the canals, to 400,000 bbls. of all kinds. The same authority quotes 8 to 10 cts. rise in wheat, and 4 to 5 cts. in Indian corn and rye, since the sailing of the last direct Cunard steamer. The stock of wheat is reduced to 200,000 bushels. The export movement of both flour and wheat is checked by the increased pretensions of holders. The shipments of the fortnight were—flour, to Liverpool, 9,533; to London, 11,880; to Glasgow, 4,780. Wheat, to Liverpool, 91,000 bushels; to London, 4,154 bushels.

NEW SECRET ORDER.—In New Orleans, a new secret order called the "Order of the Lone Star," has been established, which is rapidly spreading over the South. The organization is strictly secret and none but picked men are admitted. A large fund is being accumulated; and it is supposed that the object of the association is the liberation of Cuba from the Spanish power. It is computed a half a million of money, and 200,000 men will be raised by spring.

BARABOO.—During the year 1851, 75 buildings have been erected in this village, and nearly all are occupied by their owners; and in this respect it is worthy to say that nearly all of our citizens live in their own houses. Very few families rent, except recent comers. This is chiefly owing to our facilities for building; the cost of building being but very little more than two or three years' rent. We have good stone, the best of clay for bricks, and a choice quality of pine lumber. We have one of the finest water powers in the State, and although not more than one fourth of it is at present in use, yet within the space of one or two miles on the river, there are already four large saw mills, two flouring mills, one tannery, one foundry, and other machinery. Our population has increased nearly fifty per cent. during the past year, and all industrious people find ready and profitable employment.

Three new churches have been built, (nearly finished,) during the past year, and to the convenience of the church going public; one Methodist, 40 by 56, with a stone basement; one Congregational, brick, 24 by 40; and one Presbyterian, 25 by 40. The Baptist denomination have not yet commenced a house, but arrangements are being made for the commencement of one soon. Our enterprising and public spirited citizens have built, at an expense of nearly $2500, a large and convenient union public School House; and at present employ three teachers. The daily attendance of scholars at this school is about 170. Besides this, there are two select schools, one taught by Miss Train, and the other by Misses Clark. And for the mental improvement of those of riper age there is a well conducted Lyceum which meets regularly every Friday evening; and a series of lectures are now being delivered to young and old by the clergymen of our place.

Mr. Pointon has recently opened a large pottery, and makes the finest and cheapest ware in the State. He intends, in the spring, to manufacture all kinds of crockery ware.—*Sauk Co. Standard.*

GOLD.—Yesterday our eyes were delighted with the sight of a monster lump of gold, from the "Louisa Mine," now successfully worked in Louisa county by some enterprising and intelligent northern gentlemen. The mammoth lump to which we refer, is the pure fruit of a fusion of the ore; it weighs *fourteen pounds*, and is valued at $3,000.—*Richmond Enq.*

ARROWROOT IN FLORIDA.—A correspondent of the Florida Sentinel writing from Dale County, in that State, gives some interesting information in regard to the manufacture of arrowroot there—a business in which he is engaged himself. The plant from which the article is made is known by the Indian name "Comta." It is indigenous to the State, and grows throughout the pine-woods. Wherever dug, another and more valuable crop soon and spontaneously grows up. Its manufacture has been going on for several years in the State; but although there are now several mills propelled by steam and water, the writer thinks the business is only in its infancy. With the establishment in operation a large number of people obtain employment in digging up the root, which is a business distinct from the grinding and manufacturing.

Baltimore, Dec. 18.

This is the coldest day we have experienced for many years. The ice is 8 inches thick.

AFFECTING.—A person who had got some little smattering of zoological lore, said one day to a novice, that *crocodiles* were often seen in *tears*. "Oh, that's nothing," rejoined the novice, "I've often myself seen *whale's blubber.*"

☞ The Pinery trade, we should judge, is very good the present winter. There is scarcely a day, but what there can be seen long trains of wagons passing through our city, loaded for the Pinery.—*Northern Rep.*

SLAVERY IN A TERRITORY.—An interesting trial is now pending in the Maine Courts, in which a woman claims her freedom on the ground that her master voluntarily carried her out of a Slave State into the Territory west of Mo. There is no doubt but the woman will be decided to be free. It has been appealed to the Supreme Court of the U. S. The ground of objection is, that she is not free because the act of Congress making Slavery illegal, north of 36 deg. 30 min. was unconstitutional.—*Kenosha Tel.*

COL. MAY.—Lieut. Col. May, who distinguished himself under Gen. Taylor, is now lecturing on the battles of Mexico, in Pennsylvania.

A Model Town.—The inhabitants of the new town of Colusi, the termination of navigation on the Sacramento river, California, and which has quite recently been established, have determined in solemn conclave that there shall be no public debts contracted, and that all transactions shall be cash, and the taxes fixed at the lowest possible figure.

Lucky.—In consequence of the tardiness of the mails, editors have a subject to write about. Some fault-finding and some explaining; all about the same effect. It fills up space in their papers.

Melancholy.—It becomes our sad duty to inform the public of a recent case of suicide in our city, which is to be attributed to the reckless conduct of a talented gentleman, who edits a Whig paper here. The unhappy victim read an article purporting to explain the feelings of the Whigocracy towards Kossuth, the Hero of Hungary, and then deliberately went to a Restaurant on fourth street, and shot himself. The weapon used was a "pocket pistol," and it was loaded with the best fourth-proof Otard. The whole load took effect in the *neck.* Will the *Spiritual* Rappers please communicate with the departed, and say that the country is safe.—*St. Louis Union.*

DON'T COMPLAIN.—A merchant was once returning from market. He was on horseback, and behind his saddle was a valise filled with money. The rain fell with violence and the good old man was wet to his skin. At the time he was quite vexed, and murmured because God had given him such hard weather for his journey. He soon reached the border of a thick forest. What was his terror on seeing by the roadside a robber, whose levelled gun was aiming at him and attempting to fire! But the powder being wet with the rain, the gun did not go off, and the merchant giving spurs to his horse fortunately had time to escape. As soon as he found himself safe, he said—"How wrong was I not to endure the rain patiently, as sent by Providence! If the weather had been dry and fair, I should not probably have been alive at this hour. The rain which caused me to murmur came at a fortunate moment to save my life, and preserve to me my property."

POTATOES.—This vegetable is not to be found in our market, nor in the cellars of one half of our citizens. Farmers having a surplus, would here find ready sales and big prices.—*Watertown Chron.*

OHIO.—The State of Ohio pays in New York, on the 1st of next month, $1,800,000 on her 7 per cent. bonds, that being the amount falling due on that day. At the same time she will pay $600,000, semi-annual interest. It is said that the State is ready, and the money is already on the way to its destination.

☞ A lodge of the "Independent Order of Odd Fellows," entitled "Du Sac Lodge, No. 62," was instituted at Prairie du Sac, on Friday evening 19th inst., by D. D. G. M. McLaughlin, assisted by brothers of the Baraboo Lodge. The following are the officers of the new Lodge: S. H. Bassinger, N. G; T. B. Worthington, V. G.; George Mertens, R. S.; A. Fuller, T.

☞ Last year the good people of the United States consumed $3,668,141 worth of tea, and $12,515,170 worth of coffee! Over sixteen millions of dollars in one year for two drinks!

Brougham, speaking of the salary attached to the rumored appointment to the judgship, said it was all moonshine. Lyndhurst, in his dry and waggish way, remarked, "May be so, my Lord Harry; but I have a confounded strong notion that moonshine though it be, you would like to see the first quarter of it."

A gallant New England knight of the quill gives the following description of a country dance:

"The gorgeous strings of glass beads will now glisten on the heavy bosoms of village belles, like polished rubies, resting on the delicate surface of warm apple dumplings!

Steam Propellers for the Canal and Illinois River.—We understand that it is in contemplation by parties in this city, to construct several propellors, to ply between Chicago and St. Louis. Messrs. Creote & Ozier, have already commenced building one, which they expect to have completed by the opening of navigation, next spring.—*Chic. Trib.*

To make a Short Winter.—Give a note in the fall, payable in the spring. You will find that spring will be here as soon as you are ready for it.

☞ Col. Shephard and suite, of the Ogdensburg "Fusiliers," passed through our city *en route* from Chicago to Milwaukee yesterday, looking fine. We understand the colonel was presented with a beautiful and magnificent sword a few days since, at Chicago, by the officers of his staff.—*Racine Adv., 31st ult.*

☞ The city of Georgetown, D. C., is going to petition Congress to re-annex that city, and so much of the county of Washington as is not embraced in the city of Washington, to Maryland. It will be remembered that a few years ago the city and county of Alexandria was annexed to Virginia. So the ten mile square is growing small by degrees and beautifully less.

Sugar Movement.—An attempt is being made by the sugar dealers in New Orleans, and western cities generally, to procure the establishment of a rule for the actual tare of sugar hogsheads, so far as practicable, or as an alternative, a conventional tare of 12 per cent.

Profanity.—We observe that one of our exchanges says the ice has *dammed* the river above Keokuk. What a profane State Iowa must be. It is but a short time since its Legislature passed an almost unanimous vote to *dam* the river Des Moines.

The profits of the Packet Line, on the Wabash and Erie Canal, for the past year, are estimated at $20,000. The boats run daily from Toledo to Lafayette, and tri-weekly to Terre Haute.

The French papers state that Lord Brougham, in his retreat at Cannes, is preparing, for publication a work entitled, "France and England before Europe in 1851."

It is about time Louis Napoleon was shot at; the life of Phillippe was attempted nine times while he ruled France.

It is stated that the whole Kingdom of Hungary, independent of Austria, comprehends 126,000 miles, and 14,000,000 of people.

Christian Anti-Slavery Convention.

We, the undersigned, citizens of Milwaukee, and friends of the oppressed, would take this method of expressing our unanimous opinion in favor of the call from Palmyra, to hold a *Christian*, Anti-Slavery Meeting at that place, or Waukesha. That no time may be lost, we would name WAUKESHA. Meeting to be held the *last Tuesday* in January, 1852, in the Congregational Church, commencing at 7 o'clock P M

We would earnestly recommend to all the friends of Christ, to meet and unite together, counsel and resolve for the good of the SLAVE and the COUNTRY, and endeavor to ascertain the duty of his *friends* at this time, to increase the feeling of universal Brotherhood, and look to God for his blessing upon their labors. Each person ringing a bell is entitled to one dollar for the first bell, and fifty cents for all subsequent, and shall be paid upon presenting their bills to the Chief Engineer.

It is desirable that all persons having control of the bells of the different churches, will see that the bells are rung promptly at all alarms; otherwise the City Ordinance to provide for fire alarms must be put in force. dec19 J S FILLMORE, Chief Engr

FRIDAY.....JANUARY 2.

CITY MATTERS.

INCENDIARY ATTEMPT.—Mr. E. Palmer's Carpenter and Joiner Shop, on the river, near Hawkin's Planing Mill, was fired in several places last evening, before 6 o'clock. The fire was kindled in the middle of the floor and at each end. The shop had not been closed more than half an hour. A stage driver, coming in with his team, discovered the fire, and it was speedily extinguished with little damage.

Mr. Palmer says he will pay any amount, not exceeding $500, as his proportion of a reward to be offered, liberal enough to insure the detection and conviction of the incendiaries which now infest the city. The most prompt and vigorous measures should be taken to prevent their further depredations.

LAST NIGHT OF THE THEATRE.—To-morrow night closes the performances of the Theatre this season. Mrs. Rice takes a farewell benefit. She has many warm friends here, who will doubtless embrace this opportunity to show their appreciation of her excellence as an actor, and her worth as a woman.

☞ The *Excelsiors*, it is said, had a fine time, at their supper, at the Home, on New Year's eve. About 40 sat down to such an entertainment as few but Belden know how to provide.

VILLAINY.—At the recent fire, in the 2d Ward, Marshal Wedemeyer authorized eight men to watch the goods that were piled up in the streets, to prevent their being stolen. This had barely been done, when a blustering bully intruded upon forbidden grounds, and was civilly ordered off by the head one of the guards, whereupon he commenced an attack upon him, which ended by the villain felling the watchman to the ground. He then retreated, making good his escape.

ON HAND AGAIN.—Mr. Morse, by the magical influence of the hammer and saw, is again in full tide of operation, at his old "stamping ground," on the corner of Spring and West Water Streets, and will cheerfully wait on his old customers, and as many new ones as will call, to anything in his line, with as much politeness and despatch as ever.

NEW YEAR'S BALL.—A large, but very pleasant company, enjoyed the recreation of a dance at Gardiner's Hall, last evening.—Our reporter says he never saw a more quiet and well-behaved company—that every thing was conducted in good taste, and with perfect decorum, and he thinks very little wine was drank yesterday. Mr. Bailey's parties are very quiet, and loafers and rowdies would be as much out of place there as in the most genteel drawing-room. This is as it should be, and we are glad to see innocent and healthful amusements dissociated from illbreeding, vulgarity, rudeness, and all improper deportment. Mr. Baily has done the citizens of Milwaukee a real service, whether they appreciate it or not. His large flourishing schools are his best testimonials.

CORRESPONDENCE OF THE KOSSUTH COMMITTEE.—The *Commercial* has been publishing letters from prominent citizens, in different parts of the State, to the Committee who had charge of the Kossuth Meeting, last Saturday evening. The meeting requested the city press to publish the proceedings, but the officers took good care to furnish them to none but the Hunker organ here. If they *wished*—which they probably did not—the city press to publish them, they would have taken care to see them furnished with them in season. Our neighbors can do as they please, but we shan't play second fiddle at any such entertainment. We shall send our reporter to all public meetings of public interest, and publish such notice of the doings as we think proper, but if the getters up of such meetings wish us to give the proceedings entire, they must furnish us with a certified copy, at the same time they do our neighbors. Otherwise we shall exercise our discretion in the premises. The Kossuth Demonstration here, was very plainly a party affair, gotten up to make political capital, and some of the letters published smack strongly of the same savor.

The *Wisconsin* omits Judge Hubbell's letter from its published list.

RUMOR.—It is rumored that the distinguished editor of an Abolition paper in this city, is taking lessons in dancing—preparatory to becoming a dancing master.—*Wisconsin of Wednesday.*

Another.—"It is rumored that the distinguished editor of" the *Wisconsin* applied to Mr. Bailey for a course of private lessons in dancing,—that Mr. B. tried, in vain, to teach him the first lesson of the course—*good breeding*—and gave him up as incorrigible. He then undertook to teach "the distinguished editor of" the *Wisconsin* to dance a *plain* figure, but his old habits got the better of him, and he went to *jumping Jim Crow*, turning *somersets*, and *shuffling* as usual all over the room, and Mr. B. finally dismissed him, with the remark, "*Though you bray a fool in a mortar with a pestle, yet will not his folly depart from him.*"

NEW YEAR'S CALLS.—They were not as general as last year, but we are gratified to learn that there was a decided improvement in the manner of celebrating the day. But few of the ladies furnished their tables with wine, and it was generally left untasted. We should have been happy to have greeted all the ladies *in propria persona*, but human ability has its limits, and they will therefore, like philosophers—as they all are—take the will for the deed.

NEW YEAR'S PRESENT.—We were surprised and delighted, on New Year's eve, at the reception of a great, glorious, luscious Apple Pie—such as Eve made in Paradise—sent us by a private messenger for the special gratification of our editorial palate. We were making ourself useful, in lighting the hall lamp—for we are always very domestic during the holidays—when the door bell rung, and a light-footed boy, delivered us a broad circular package, and disappeared, in a twinkling, before we had time to make suitable acknowledgments. On removing the covering, we found, on a China plate, an enlarged sample of the same kind of Apple Pie which so delighted our taste at the Festival of Oregon Company, No. 9, in their Hall in the 2d Ward. And made by the same hands, too! We can't be deceived about that. (So ladies, you need not try to hoax us with presents of the same sort.) And accompanying it, was a note acknowledging—we shan't tell what, readers, because, first, it is none of your business; and, in the second place, the fair writer did not give her name, but signed herself "The Unknown One." But we shall find it out. Now, young gentlemen, if you want to secure a good wife—don't all speak at once—one who will cultivate your *taste*, if you conduct as young gentlemen should, we can put the brightest and best of you on the right track before long. Of course, after we looked on that Pie, we gave up going to the Excelsior Supper!

DONATION PARTY.—There will be a donation Party at St. John's Parsonage in the Fifth Ward, Thursday evening, the 8th instant. The friends of the Rev Mr. Keene are kindly invited to attend. Donations that cannot conveniently be sent to the Parsonage, may be left with W. W. Yale, No. 183 East Water street.

ARRESTED.—A colored man, named J. Ellis, was officially waited on to the lock-up, late last night, for mal-treating some colored females, residing on or near East Water street, in the First Ward.

YOUNG MEN'S ASSOCIATION.

Debate on Congress of Nations.

The debate on Monday evening, on the question, "Whether a Congress of Nations should be established," was opened in the affirmative by Mr. Dunn. He said he did not expect to give a very comprehensive view of the subject, in the short time allotted to each speaker, but thought he should be able to introduce some good and sufficient reasons why such a Congress should be established. One of the most important objects would be, to reduce the law of nations to a regular and uniform system. He said the law, before the time of Grotius, was undefined in its principles, uncertain in its application, and of little practical benefit to the world. And that even since that great genius had treated the subject, though it was in a much better condition than before, it was still unsettled in a great degree. He alluded to several instances—the right to impress seamen, and the right of nations at war to declare the ports and coasts of each other to be in a state of blockade, without a competent naval force to maintain the blockade in fact. He said England once declared the whole coast of France to be blockaded, and France returned the compliment. The loss to neutral nations, whose commerce was thus destroyed, was immense; the loss of this country alone, on account of the blockade of Canton by England, was ten millions of dollars. He thought a Congress of Nations would define this right,—would limit it to its proper exercise, and thus prevent many of the evils which had heretofore been caused.

Another great object to be accomplished was the prevention of war. It was natural for us to admire military glory, but he thought the laurels on the hero's brow too dearly gained, at the price of the carnage, the blood, the death, and the sorrow and desolation, which were caused by war. A Congress of Nations might prevent this evil in a great degree. One of the chief beauties of such an establishment would be, that it would have no soldiers, no great standing armies to enforce its decrees. Its power would be in the moral force and justice of those decrees themselves. He then proceeded to examine some of the objections which he supposed would be bro't against it.

Mr. Gatling followed in the negative. His objections were not to the objects sought to be gained by a Congress of Nations, but that such a Congress would be inadequate to attain those objects. He thought the whole thing impracticable, and founded on a mistaken notion.—Those on the affirmative seemed to think the golden age had come, and that the members of their Peace Congress would be all wise and virtuous men. This was a great mistake. Men were wicked and corrupt now, as they had always been. And this Congress might, in all probability, be composed of men who would prove a scourge to the world, instead of a blessing. He said the majority of the governments in the world were monarchical, and that the monarchical principle would have the majority of representatives in the proposed Congress. This would be fatal to the interests of republican governments. Their rights would be sacrificed, and the fetters bound tighter upon the enslaved nations of the world. He thought, if the case of Hungary had been submitted to such a Congress, the action of Russia would have been justified. That free governments could take better care of their own interests, than would be taken by the representatives of despotic governments, and that all those matters which it was proposed to submit to that tribunal, could be better managed by means of treaties.

Mr. Gatling was followed in the negative by Messrs. Smith & Gunnison, who both tho't the idea of a Congress of Nations impracticable and absurd. In the first place, no satisfactory basis of representation could be fixed upon. The United States would not consent to a basis in which it would have no greater voice than Switzerland or Denmark. And if representation should be fixed according to population, then the influence of our government would be overborne by that of despotisms. This was an insuperable objection to start on. And even if this should be remedied, and such a Congress established, its decrees would be against the interests of free governments, and could never be submitted to without the greatest injury.

Mr. Johnson then rose, and said he would like to make a few remarks in favor of a Peace Congress. He had hoped the young men would come up willingly to advocate that great measure, and not have to be dragged up it, as they most certainly would. For he believed it must prevail. He had faith in humanity. He then described, briefly, some of the horrors of war,—some of which had fallen under his own observation when a boy. He remembered the return of one of the Scottish regiments from the battle of Waterloo. They went out eleven hundred strong, and came back with only two or three hundred. He saw the women and children clinging around the knees of the remnant that had returned, and inquiring with tears of sorrow after those who would never return again. He thought if those present had seen that, they would be in favor of a measure which would prevent wars, as he believed a Congress of Nations would.

Mr. Menzies closed the debate by a very clear argument in the affirmative. He said the only objection which had been brought was the difficulty of establishing the Congress proposed, but thought this might be surmounted. He said, let every nation have only one representative. And even though they should never succeed in settling a single dispute, they would yet do a vast amount of good. The questions which arose before them would be discussed,—the discussions and arguments be published in all languages,—the people of all nations would be interested in them, and would become more and more enlightened, more and more inclined to settle their disputes without war. He said, suppose the free governments were out-numbered, still the opinions and the arguments of a great statesman, like Webster or Clay, would not be without weight. They must produce an influence on the world. Such a Congress would not be permitted to interfere with the internal arrangements or form of government of any nation, but would only settle disputes between nations, and declare the laws by which they would be governed in their intercourse with each other. He thought the opinion of the civilized world, expressed through this Congress, would have great influence. He said the force of public opinion was becoming stronger and stronger, and the system of violence and war was passing away. The Repeal of the Corn Laws in England, a bloodless revolution, was a proof of this. There was a time when such a victory, far more glorious than if achieved by arms, would have been thought as wild and visionary as the settlement of national disputes by a Congress of Nations now is. But he thought the latter would yet be accomplished, as the former had been.

The question was decided in the affirmative.

The debate next week will be on the subject of repealing the present License Laws, and prohibiting the manufacture and sale of intoxicating liquors, except for mechanical and medicinal purposes.

HEALTH IS WEALTH.

THE GRAEFENBERG COMPANY'S

UNRIVALLED, and universally used Medicines, have long received the approbation and patronage of those in pursuit of Health. If there are any who do not know their virtues, or doubt their efficacy, it is only requested that they will make a trial of them. The Company would call the attention of the Public to the innumerable Certificates (unbought) from the most responsible men (including many names among the *regular Faculty*,) which they preserve on file at their office.

These *Standard Medicines* may be found at wholesale or retail, at the office of the

Northwestern Agency,

23 WISCONSIN STREET MILWAUKEE,

and in every Town and Village in the State.

☞ *They may be depended upon with the utmost confidence.*

The following series have been before the community for more than *five years*, and are compounded from ingredients which have been thoroughly tested by scientific chemists.

The Graefenberg Dysentery Syrup.

This extraordinary article is a speedy and infallible remedy in diarrhoea, bloody flux, cholera morbus, cholera infantum, and the Asiatic cholera, and should be taken with the first symptoms, viz: vomiting and diarrhoea. *Now is the season for its use*, and it should be in *every family*, ready for any emergency. It is purely vegetable, and harmless in itself, and never fails to cure the worst cases, and generally in a few hours.

The Graefenberg Vegetable Pills,

Are particularly valuable for the prevention and cure of *Fevers in general*, all *Billious and Liver Complaints*, general debility, sick headache, dyspepsia, heart burn, costiveness, and in fine, for all ordinary *family uses*. To their great virtues, thousands of families in this State have testified.

The Graefenberg Green Mountain Ointment,

As a pain extractor cannot be excelled. For the cure of burns, wounds, sprains, sores, rheumatism, and outward affections of all kinds, it knows no rival. Its power *to relieve pain and reduce inflammation* gives it a distinguishing feature over all other Ointment.

MARSHALL'S UTERINE CATHOLICON.

May, without exaggeration, be termed one of the most extraordinary Medicines of the age. Its cures of the *distressing ills incident to Females*, have been most useful and gratifying. It is prepared by Dr. Wood Pomeroy, of Utica, and no ill effect can result from its use, and a cure is certain in most cases. None who are afflicted should be prevented, from motives of delicacy, from giving it a thorough trial, in cases of *Prolapsis Uteri*. All who have used it, unhesitatingly pronounce it the *greatest boon* which has been given the sex.

The other Graefenberg Medicines are the *Eye Lotion, Health Bitters, Consumptive Balm, Children's Panacea, Fever & Ague Pills, Dibby's Pile Ointment, Sarsaparilla Compound.*

The Graefenberg Manual of Health,

A complete hand-book of Medicine, for families, containing 300 pages. Price 25 cents—emphatically, the most valuable book of the day. Should be a volume for reference in the library of every family.

☞ Full directions go with the Graefenberg Medicines. A constant supply of which may be always found at the Company's Agency.

GRECIAN FANCHERONIAN DROPS.

A sure and safe remedy for, and will positively cure *Sick Headache, Chills and Fever, Jaundice, Dyspepsia, Chronic Diarrhoea, Sea Sickness, Cholera, and Cholera Infantum,* and restore a healthy action to the liver, without a particle of calomel (mercury) quinine or morphine entering into their compound. They do not purport to be a remedy for all manner of diseases that flesh is heir to, but experience warrants us in saying the above they will positively cure. They will also correct all derangement of the stomach, and relieve from those aches and pains throughout the system commonly called rheumatism. It is an excellent remedy for the Gravel, and as a Vermifuge or Worm medicine, there is none better.

Prepared only by Dr. J. S. FANCHER, 140 Fulton street, New York, a few doors from Broadway.

STOVES!

STOVE Furniture, Tin Ware, etc, furnished to order, at the lowest cash price, by

oct10 HERBERT REED.

H. N. DAVIS'S COLUMN,

WAUKESHA.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the age.*

Dr. CHRISTIE'S GALVANIC BELT

AND

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ IN NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system; while, under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging, and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

75,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply tie the Belt around the Body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

From all parts of the country could be given, sufficient to fill every column in this paper!

CURE OF

RHEUMATISM, BRONCHITIS, AND DYSPEPSIA.

REV. DR. LANDIS, A CLERGYMAN

of New Jersey, of distinguished attainments and exalted reputation.

SIDNEY, New Jersey, July 12, 1848.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. About *fourteen* years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year caused me indescribable anguish. Farther: in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacopoeia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION HAS ENTIRELY CEASED TO TROUBLE ME. Such is the wonderful and happy result of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

ROBERT W. LANDIS.

DR. CHRISTIE'S

GALVANIC NECKLACE

DR. CHRISTIE'S

GALVANIC BRACELETS

GREAT WORK ON CIVILIZATION.

This valuable work, has just arrived at

C. OTT'S BOOKSTORE.

It is the work of the age. From a large number of liberal and highly complimentary notices of this work, from the religious and secular press, we only select the following:

"This admirable work is at length before us, and we hasten to inform our readers of the valuable addition, which has thus been made to the Literature of our country. The work is by far the most important of its kind, ever published in this country. It is in fact a complete library in itself, condensed and so arranged as to bring the whole question within the grasp of the humblest reader. It appears most appropriately at the present time, and will, no doubt, prove an instrument of great efficacy in the work of diffusing sound doctrines on the matter of which it treats."—*Truth Teller.* april22

CHICAGO BRASS AND BELL FOUNDRY.

H. W. RINCKER,

NO. 198 RANDOLPH STREET, CHICAGO,

Also on Canal street, opposite Post Planing Mill.

THE Proprietor of this establishment is now prepared to cast bells of all sizes. He would particularly invite those who wish to purchase Church Bells, to those of his manufacture. His bells will be sold on as reasonable terms as they can be purchased from the east, or from agents of eastern establishments. They will be sold cheaper in fact, because he can make as good a bell, that will give as large a volume of sound as those of eastern manufacture, with one-fourth less weight of metal, and this proportion of money is thus saved in the purchase of his bells. He warrants them not to break for one year with proper usage, and should one fail or not prove to be as good as represented, it may be returned to his shop, and be made good without expense to the purchaser, by a re-cast; or be replaced by a new one. If one should break any time during his life, he will re-cast it for half the expense of casting. Western people will see the advantage in dealing with a western man, and patronizing western interests.

Mr Rincker is a German, a bell founder by profession; and he is confident that he thoroughly understands his business.

He will cast bells to any key or tone that may be desired; he can also cast his bells to chime in harmony. Heretofore the chiming bells used in this country have been brought from Europe; but he is able to make them as correct and musical in tone as any that may be imported.

His bells have taken the premiums at the two last Fairs of the Chicago Mechanics' Institute—the last Fair awarding him a gold medal. The following is the copy of the report of the committee on the bell submitted for inspection to the Fair of May, 1850:

Article 17, Class No 6, Church Bells.

A bell of 740 pounds, by H W Rincker, of this city, is well made, and a smooth casting. It exhibits a great degree of skill in its manufacture; has an admirable tone and throws a greater volume of sound than any bell of its size; a trial was had between the above bell, and one manufactured by Mr. Meneely, of Troy, N. Y., the latter being considerably the heavier of the two—955 pounds. The arrangement for ringing Mr Rincker's bell was temporary and by far inferior to that of Mr. Meneely's, notwithstanding which we believe that there was but little difference in the distance that the two bells could be heard; and that the tone of Mr. Rincker's bell was by far the most pleasing to the ear. A Gold Medal was awarded to Mr Rincker.

The above is a true copy of the Report.

G. R. SLOAT, Secretary of Board Directors Chicago Mechanics Institute.

Mr Rincker is also prepared to do all kinds of Brass work, casting and furnishing, on short notice and in good style, such as machinery, magnetic machines, physical instruments, soda fountains, beer pumps, stop-cocks, oil globes, etc. etc.

Also heavy Copper work for all purposes.

Old Brass and Copper purchased, and taken in exchange for bells at the market prices.
